

Knuffi®

The Soft Edge Bumper Guard

Warning and protective bumper guards effectively prevent impact damage and protect your buildings, furnishings and equipment. They absorb even the hardest impacts, effectively reducing the risk of damage to property or injury to personnel.

Knuffi® are used indoors and outdoors along walls, in corridors, on doorway edges, on furniture and on machinery. Vehicles such as lift trucks, mobile equipment, trailers and others can also be protected by Knuffi®.

Knuffi®

The Soft Edge Bumper Guard

Knuffi® - Bumper Guard warning and protective profiles are manufactured from tough, flexible polyurethane foam. The highly visible black and yellow striped covering warns of danger or restricted access.

Knuffi® are manufactured using a patented method, which prevents color deterioration and guarantees long life under the toughest operating conditions.

Knuffi® are supplied in poly bags as standard 3.28' (1m) lengths, or 16.4' (5m) rolls. Special orders can be arranged in various lengths up to a maximum of 164' (50m).
